Whole Roasted Turkey and Spiral Ham Heating Instructions

Whole Roasted Turkey:
Refrigerate turkey until ready to heat. Do NOT microwave.
- Preheat oven to 350°F.
- Remove turkey from packaging and place turkey into clear cooking bag.
- Close the clear cooking bag with the plastic tie closure.
- Place turkey in a roasting pan.
- Place roasting pan on the bottom rack of preheated oven to allow room for cooking bag to expand during cooking without touching heating elements, walls, or racks.
- Roast to an internal temperature of 140°F, approximately 90 minutes. (If whole turkey is still frozen, cook for 2.5–3 hours)
- To crisp the skin, slit the cooking bag and heat uncovered for the last 15 minutes.
- A pink line near the outside of the turkey breast may result from our cooking process. Each breast is temperature checked for doneness before leaving the packaging facility.

Boneless Turkey Breast and Boneless Ham Heating Instructions

Boneless Ham:
Refrigerate spiral ham until ready to heat. Do NOT microwave.
- Preheat oven to 325°F.
